

PROJECT CASE STUDY

Federal Mogul

Federal-Mogul Corporation is an innovative and diversified, \$7.4bn turnover, supplier of quality products and creative solutions to manufacturers of the global automotive industry. They also offer specialist services in the power generation, aerospace, marine, and rail sectors. Kellwood LED Lighting were contracted to update the primary lighting systems of Federal Mogul's factory in Coventry.

Solutions

Federal Mogul had clear ambitions for their new lighting system. Kellwood met these precisely while offering informed advice and answering all queries in a timely and thorough manner. In principle, whichever party could best balance efficient products, cost, improved lux levels, and uniformity would be awarded the project. Kellwood's key objective of delivering the most competitive, quality-driven option was met with enthusiasm.
